Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Thursday 01 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Variable cloud, with scattered showers on Friday.

This Evening and Tonight:
A fine end to the day for many, though low cloud, fog or mist may be an issue in places, especially in the early hours of the morning. Slightly warmer than last night for some. Minimum temperature 10 deg C (50 deg F).

Friday:
Variable cloud throughout the day, with scattered showers, heavy in places, developing from the late morning onwards. Feeling warm in the sunshine away from any rain. Maximum temperature 23 deg C (73 deg F).

Outlook for Saturday to Monday:
Feeling muggy with sunny spells and widespread showers throughout this period. Risk of hail and thunder over the weekend, with showers heaviest on Sunday. Longer spells of rain later Monday.
